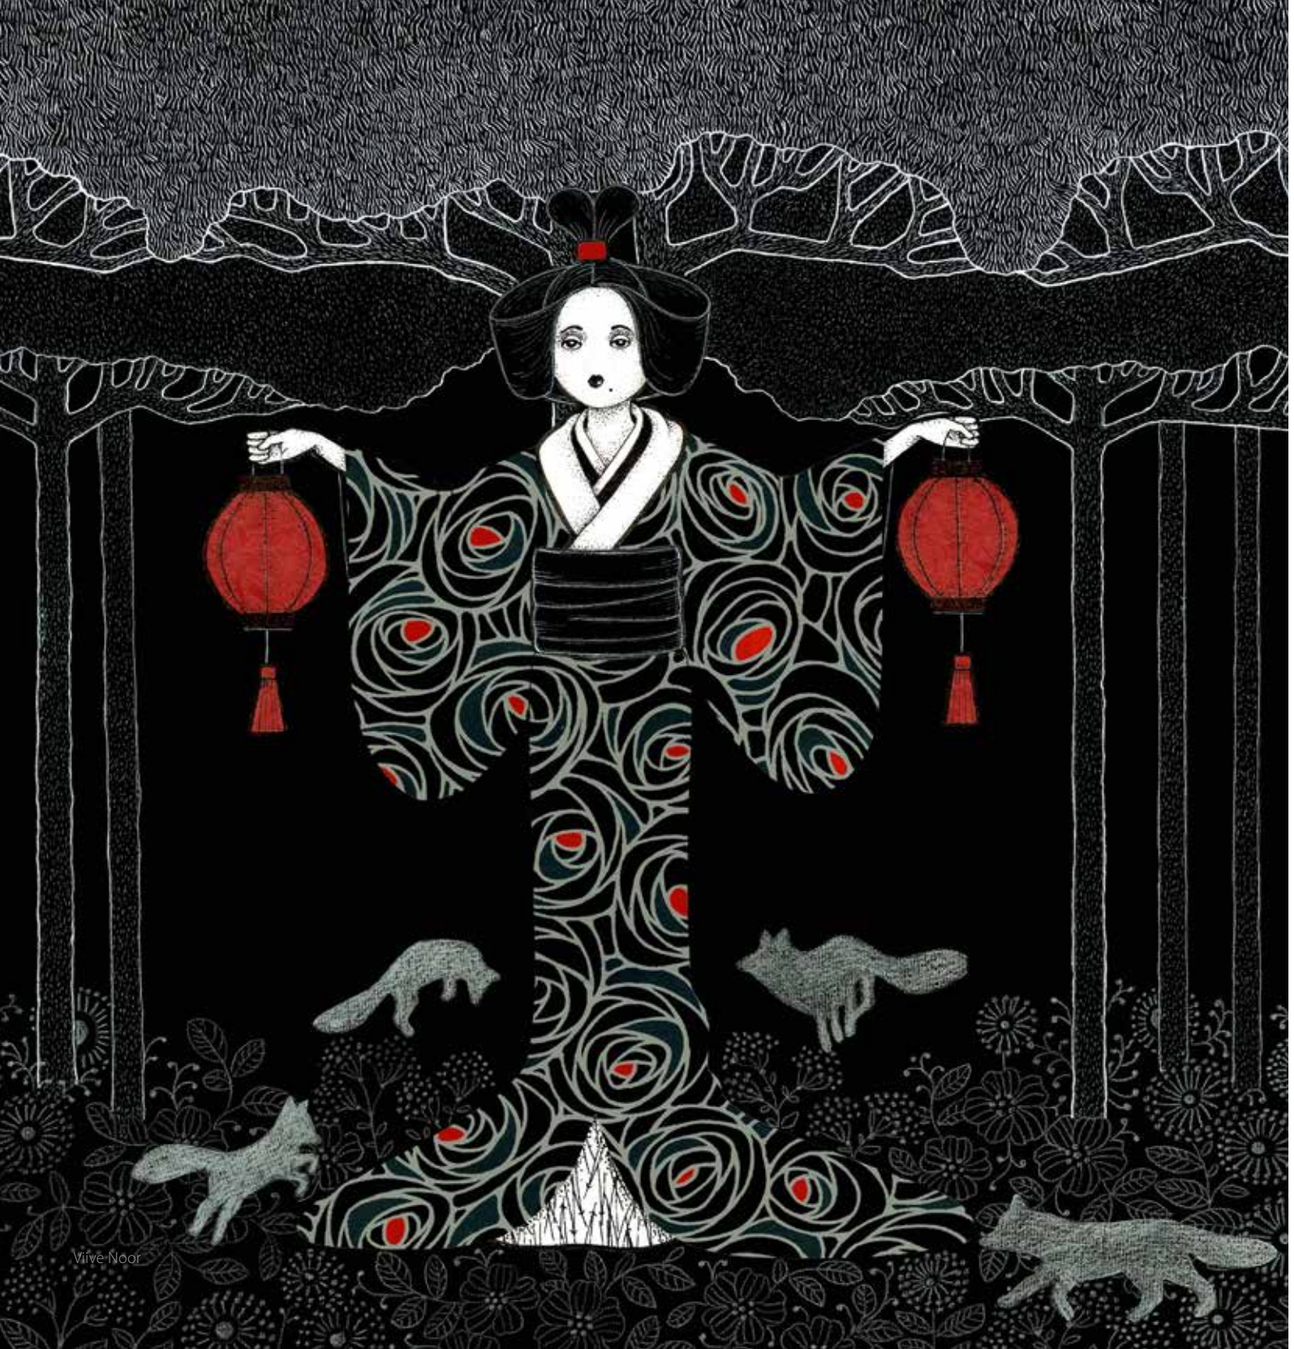
Rahvusvaheline illustratsiooninäitus



Viive Noor

Libarebane | Rebase võlu

Hiinas ja Jaapanis pole inimest, kes ei teaks midagi libarebastest. See vaimolend on nende kultuuride lahutamatu osa sama kindlalt, kui haldjad on seda Euroopa kultuuris.

Armastatud ja kardetud, kuri ja hea, võrgutav ja kättemaksuhimuline, armastav ja kaitsev, truu ja reeturlik, kiuslik ja õilis, eluaastaid tuhat ja üle selle. Kujumuutev vaimolend, kel võime ilmutada end meile jumalikult hurmava neiu, peenelt haritud õpetlase või tavalise metsarebase näol. Ta võib inimesest elumahlad välja imeda, heita ta surmasuhu ja minna siis uut ohvrit otsima. Võib aga saada ka ustavaks ja heaks vaimuks, kes kaitseb kurjade inimeste eest, pakub taevalikke rõõme ja vaimu tiivustavat vestlust. Taevarebasel on üheksa saba ja talle on kättesaadavad maailma sügavaimad saladused, mis peituvad meheliku ja naiseliku alge vaheldumises.

Euroopas on libarebane siiski kaunis tundmatu nähtus ja kuulub enam haritud inimeste maailma. Teda ei tohi mingil juhul samastada meie libahundiga. Kuidas seda jumalikku olendit näevad, mõistavad ja tunnetavad inimesed väljaspool idamaist kultuuriruumi, milline tundub ta läänlase pilgu läbi nähtuna, seda püüabki meie näitus kajastada. Iga kunstnik näeb niigi kõiki maailma nähtusi veidi isemoodi, siin aga tuleb mängu ka kultuuride erinevus. Võib-olla vaataksid hiinlased ja jaapanlased neid pilte muigega, aga loodame, et see on heatahtlik muie.

Viive Noor, kuraator

Fox Spirit | Fox Charm

In China and Japan, everybody has heard of the werefox. This spirit creature is an inseparable part of their culture, just as fairies are in the European culture.

Loved and feared, evil and good, seductive and vengeful, loving and protecting, faithful and betraying, spiteful and noble, aged a thousand years and more. A shapeshifting spirit-being who has the ability to appear to us as a divinely charming maiden, a finely educated scholar or an ordinary wild fox. It can suck out a human's life juices, push them to the verge of death and go looking for a new victim. Or become a faithful and good spirit who protects you against evil people, offers heavenly joys and is a conversation partner who uplifts your soul. The celestial fox has nine tails and knows the deepest secrets of the world, the secrets hidden in alternation between the male and the female form.

In Europe, the werefox is still a relatively unknown phenomenon and mainly belongs to the world of educated people. It must not be confused with our werewolf. Our exhibition tries to reflect on how this divine creature is seen, understood and perceived by the people who do not belong to the Oriental culture, on how a person from the West imagines it. Each artists regards things of the world differently, but here the difference of cultures also plays a role. Maybe the Chinese and the Japanese will look at these pictures with a smile, but we hope it is a benevolent one.

Viive Noor, exhibition curator

Лисьи чары

В Китае и Японии нет человека, который не слышал бы о волшебных лисах. Эти существа являются неотъемлемой частью восточных культур, как, к примеру, феи в европейской традиции.

Их любят и боятся, они могут быть злыми и добрыми, обольстительными и мстительными, преданными и предающими. Волшебные лисы меняют свое обличье, а живут более тысячи лет. Их способность перевоплощаться поистине безгранична: это может быть и милая девушка, и седой ученый, и дикое животное. Лиса может высосать жизненные силы, а может стать добрым духом, который защитит от всех напастей, наполнит жизнь радостью и счастьем. У небесной, верховной лисы девять хвостов, ей доступны самые сокровенные тайны мироздания, скрывающиеся в сочетании мужского и женского начала.

В Европе о волшебных лисах знают лишь немногие. Их ни в коем случае нельзя путать с оборотнями. Каким видят это божественное существо люди других культур, каким оно представляется человеку из западного мира – именно об этом наша выставка. Каждый художник видит мир по-своему, здесь же на это накладываются различия в культурах. Вполне возможно, что китайцы и японцы улыбнулись бы, увидев представленные в экспозиции работы, но мы надеемся, что улыбка эта была бы благожелательной.
